BRAND

I am an addicted problem solver, enthusiastic about the creative process and the actualization of client dreams. I seek out each challenge with relish and thrive on the development process to bring a project from idea to completion. I take a holistic approach to my work by understanding the harmony of multi-application integration and by being a strong link in the team dynamic.

TECHNICAL SKILLS

Languages:HTML5/CSS, Javascript/JQuery, Node.js, MongoDB(mongooseJS), Ruby, mySQL, PostgreSQL, PHP (Wordpress)

Frameworks: Angular.js, Ruby on Rails, Bootstrap, Skeleton

Experience with single page application design and API utilization.

EXPERIENCE

WEB DEVELOPMENT IMMERSIVE

General Assembly (May 2016 - August 2016)

Fullstack web development program focused on common best practices in object-oriented programming, MVC frameworks, data modeling, and test-driven development. Developed a portfolio of individually focused and collaboratively focused projects.

DRUM DATA ENTRY TEMP

Jews For Jesus (2014 - 2016)

- My duties consisted of inputing mail correspondence (donations and event participation into the database. I worked as within a team to keep the companies database up to date and clean.
